Projects

Travel and Tours: Human Resources III with Ruled-Based Attendance Monitoring and AI-Powered Report Generation

Role: FULL STACK

Tech Stack: React(JSX), Laravel(PHP), MySQL, Tailwind, CSS, Git/GitHub

Duration: AUGUST 2025 – MARCH 2026

Travel and Tours: HR3 system is a digital platform designed to manage employee operations within a travel and tours agency. It handles attendance, timesheets, shift scheduling, leave management, and claims and reimbursements in one centralized system. Attendance is recorded through a standalone software integrated with biometric fingerprint devices for accurate time tracking. The leave management feature uses AI analytics with spaCy NLP to analyze keywords in requests and recommend whether they should be approved, improving decision-making and efficiency.

IREKLAMO+: Blotter and Complaint Management System

Role: FULL STACK

Tech Stack: HTML, PHP, MySQL, Bootstrap, CSS, Git/GitHub

Duration: August 2025 – December 2025

The Ireklamo+ System is a Digital platform designed to streamline reporting and management of complaints within a community, organization, or institution. It allows residents to easily submit issues or concerns through an online interface.

Hospital Management: Human Resource III (HR3)

Role: FULL STACK

Tech Stack: HTML, PHP, MySQL, Tailwind, CSS, Git/GitHub

Duration: January 2025 – April 2025

The Hospital Management: Human Resource III (HR3) System is a digital platform designed to streamline the management of hospital employees' daily operations. It enables efficient handling of attendance, timesheets, shift scheduling, leave requests, and claims or reimbursements through a centralized system, helping ensure accurate workforce monitoring, proper staffing, and smooth administrative processes.
